Liberty Corner Fire Company
P.O. Box 98 • Liberty Corner • New Jersey 07938

The Liberty Corner Fire Company is building a 9/11 memorial in the front of our firehouse. A public dedication will take place on September 11, 2011, marking the 10 year anniversary. The focal point of the memorial will be a set of stairs replicating a staircase in the World Trade Center where so many lives were saved and others lost. On each side of the staircase will be a brick walkway designed to represent the Twin Towers. This walkway will lead you to the front of the memorial. Each step of the staircase will display actual radio transmissions from firefighters of the New York City Fire Department as they were climbing up a staircase to rescue people. The top step of the staircase will display a piece of recovered steel from the Twin Towers. The back of the staircase will display artwork created by students from Ridge High School.

To help fund this memorial, the Liberty Corner Fire Company is selling 343 memorial bricks, representing the 343 FDNY firefighters who gave their lives in the terrorist attack.

Please help us raise funding for this memorial by purchasing a brick for $100. Each of the 343 bricks measures 4" by 8" and can be engraved with up to 3 lines of text at 18 characters per line.

To purchase one of the 343 memorial bricks, complete the form below and mail a check payable to:
