

Liberty Corner Fire Company

P.O. Box 98 • Liberty Corner • New Jersey 07938

To honor the memory of the 343 members of the FDNY who gave their lives on 9/11, the volunteer members of Liberty Corner Fire Company have built and maintained the memorial in the front of our firehouse.

The focal point of the memorial is a set of stairs replicating a staircase in the World Trade Center where so many lives were saved and others lost. Each step of the staircase displays a plaque with the actual radio transmissions from firefighters as they were climbing up a staircase to rescue people. At the top step of the staircase is a piece of recovered steel from the Twin Towers.

To help fund the maintenance of our memorial, the Liberty Corner Fire Company is selling 343 individual bricks, representing the 343 FDNY Firefighters who gave their lives in the terrorist attack.

Please help us raise funding for this memorial by purchasing a brick for \$100. Each of the 343 bricks measures 4" by 8" and can be engraved with your message, up to 3 lines of text at 18 characters per line. Each engraved brick will be set into the space in front of the monument.

We ask that you help us by completing the form below and returning it to us with your donation. We hope that all of you will visit the Memorial and reflect on the sacrifices made by these Firefighters

To purchase one of the 343 memorial bricks, complete the form below and mail a check payable to:
Liberty Corner Fire Company - PO Box 98 Liberty Corner, NJ 07938
